About Me

- Computer Science student at FAST National University (graduating May 2026, 3.2/4.0 CGPA; 'A's in core programming/math). Pursuing knowledge and practical experience in Large Language Models (LLMs), Generative AI, and Machine Learning.

Education

- **FAST National University of Computer and Emerging Sciences.** Peshawar, Pakistan
Bachelor's in Computer Science (BSCS) August 2022-present
– CGPA: 3.2/4.0
- **F.Sc Divisional Public School and College** Sahiwal, Pakistan
Pre-Engineering July 2020-June 2022
– 76.3%
- **Matric Divisional Public School and College** Sahiwal, Pakistan
Science Subjects March 2018-May 2020
– 92.2%

Academic Projects

- **AI Model Fine-Tuning for Entry Test Preparation**
– Developed and implemented a fine-tuning pipeline for the Mistral-7B-Instruct-v0.2 LLM using 4-bit quantization and LoRA, leveraging PyTorch, Hugging Face Transformers, TRL, and PEFT.
– Trained the model on a custom dataset of past entry test exams, significantly enhancing its ability to generate accurate responses to exam-style instructions.
– <https://github.com/Mrup1/FineTunedModel>
- **Formula 1 Prediction AI Project** January 2025-May 2025
– Contributed to an academic AI project focused on predicting Formula 1 race outcomes using historical data.
– Applied foundational machine learning concepts and utilized Python with libraries such as Pandas, NumPy, and Scikit-learn for data analysis and model development.
– Demonstrated ability to work with data, analyze patterns, and approach predictive modeling problems within an academic setting.
– <https://github.com/Mrup1/projects.git>
- **Bank Management System** August 2023-December 2023
– Developed a console-based Bank Management System using C++.
– Implemented core OOP concepts including classes, hierarchical inheritance, and polymorphism (virtual functions).
– Managed account operations (create, deposit, withdraw, check balance, modify, close) and utilized static members for tracking.
– <https://github.com/Mrup1/oop-project.git>

Technical Skills

- **Programming Languages:** C, C++, Python
- **Tools:** VS Code, Jupyter Notebook, Power BI, Draw.io
- **Databases:** MongoDB, SQL
- **Concepts & Interests:** Artificial Intelligence (AI), Large Language Models (LLMs), Web Development
